

PASSING School - Thunderhill Raceway
Saturday, March 22 & Sunday, March 23, 2008
Ground School Friday, 3/21: 5:00 PM – 8:00 PM

Introduction To Corner Passing

The Corner Passing School is for those who have done multiple track days, are comfortable in traffic and ready for the next step. Convertibles must have a roll bar.

This school will focus on fundamental passing techniques and give students a chance to practice passing in a controlled environment. Selected corners will be used to practice the art of passing, requiring driving alternate lines to enable passing. This school is open to both street cars and track prepared cars.

Instructors will demonstrate in a lead - follow style, the passing entry and the reacquisition of the "line". There will be six practice sessions for students Through out the day working on specifically outlined passing scenarios with their instructor. Discussion sessions detailing technique and strategy will be held before and after each on-track session. At the end of the day, an "open" passing session will be held where students may pass other students in the designated corners that have been practiced in the school. Students should expect to learn the passing techniques driving at a slower pace than their maximum pace in order to allow themselves a margin of safety in traffic. This school will focus on safety and courtesy first!

- ***Familiarize yourself with the mechanics of passing!***
- ***Gain confidence in your passing techniques!***
- ***Learn how to drive an alternate, passing line!***
